Begin Census This Week In Antioch Tnshp.

Survey of Business Is Started: John Horan Is Enumerator

In Antioch Township, as well as in other townships of Lake county, census enumerators are busy these days checking on business and industry. The work, which started Jan. 2, is being carried out in Antioch township by John L. Horan. After canvassing that part of the township outside the village, he will begin a canvass of the village. According to federal statutes, all business and manufacturing establishments must be called on by the census-taker in the course of his survey.

The census being taken at this time is a more comprehensive one than that of two years ago, and is designed to give a more complete picture of the nation's resources.

Kept in Confidence

The survey is conducted by the department of Commerce, bureau of census. The individual returns are kept absolutely confidential by the census bureau, and are available to no other governmental agency. They cannot be used in any manner whatever for investigation, regulation or taxation. No person or organization other than sworn employees of the bureau of census is allowed to examine them and the statistics are preserved in such a way, and kept in such absolute secrecy, that they cannot be used in any way detrimental to any person or concern.

Horan states that he is more than pleased with the splendid cooperation extended to him by those he has already contacted, and that the work is progressing rapidly.

Following the business and manufacturing census, a census of population will be started around the latter part of March. For this work additional enumerators will be placed in the field.

Frank W. Hamlin of Lake Villa is district supervisor for the industrial survey, with Frank Kilbane of Waukegan as his assistant.

Besides Horan, Michael H. Hussey, Herman L. Christensen and Lawrence E. Bourdeau are assisting in the survey in Lake county.

Man Gets 30-Day Sentence in Job Insurance Fraud

Convicted of violating the Illinois Unemployment Compensation law, Love Miller has been sentenced to serve 30 days in the Lake County jail by Judge Perry L. Persons in the County Court of Lake county.

Miller pleaded guilty to the charge of making false representation when he applied for benefits under the State Unemployment Compensation Act in order to increase the amount of his benefits. He had received an additional \$6 because of his untruthful statement of earnings.

The maximum penalty for fraudulent representation of earnings to obtain or increase the amount of benefits under the Illinois law is a fine of \$500 and 90 days in jail.

Legion Describes to Employers Advantages of Year 'Round Work

"Illinois employers are being advised of the advantages of the employment stabilization plan of the American Legion, in a state-wide campaign being inaugurated January 1," L. N. Bittinger, of Bloomington, commander of the Illinois department, notified Commander Clarence G. White of the Antioch American Legion post today. "Employers of eight persons or more in the state of Illinois are subject to Employment Compensation laws," said Bittinger.

"The campaign which the Legion is inaugurating, will place in the hands of every employer in the state a resume of the unemployment compensation law, and will give suggestions as to how taxes are reduced by the decreasing of labor turnover," Bittinger advises Commander White.

"The Illinois Department has an employment commission, headed by Lawrence J. Fenlon, Chicago attorney. The purpose of the commission is to provide employment for ex-service men," he said.

"This year the national organization has appointed two legionnaires to handle the educational program of the employment stabilization service, Merle Schaad, of Princeville, and Harry Jansen of Chicago," he said.

A booklet entitled Analysis of Illinois Compensation Law is being furnished to interested persons by the Legion. Copy of the pamphlet may be secured from the Department of offices at Bloomington.

It Was Dry and Colder in Antioch 18,000 Years Ago

The weather may be dry and cold around Antioch right now, but it was probably colder and undoubtedly drier 18,000 years ago, according to Scientist Andre Cailleux of Paris, France.

Some time ago Henry W. Nichols, chief curator of geology at Field Museum, sent to M. Cailleux samples of sand collected from the glacial deposits at Antioch.

Cailleux has specialized in the study of sands from the era of the greatest glacial deposits. Studying the mixtures of wind-blown sands with other sands in the samples taken at Antioch, he observed the presence of wind-polished grains indicating a climate dry enough to permit the loose sand to be blown about by the wind. There was a general period of dry weather at the close of the glacial period, M. Cailleux has found.

Cailleux is now serving as a lieutenant of artillery in the French army.

Mr. and Mrs. Edmund Vos are leaving Saturday on a five weeks' vacation trip to California, in company with Mrs. Vos' parents, Mr. and Mrs. C. J. Roeschlein, Chicago.

Word was received early this week of the safe arrival of the Rev. and Mrs. W. C. Henslee at Orlando, Fla. The Henslees left on their trip Dec. 24. They plan to return to Antioch by Jan. 12.

No Fires Here But Firemen Are Kept Busy

Answer Calls to Bristol and Grass Lake; Check on Lake Villa Blaze

There were no fire alarms in the village of Antioch during the New Year's week-end but Antioch firemen were kept busy, nevertheless.

Sunday afternoon at 1:30 o'clock they were summoned to the home of George Olson at Grass Lake, where an attempt on the part of the tenant to thaw frozen water pipes set fire to the outside wall and kitchen floor. The floor had been stuffed with old newspapers for insulation.

A call to the Jerry McNamara farm across the state line in Bristol township, east of Highway 41, brought the firemen out Monday evening at 7:30 o'clock.

Farmhouse Burns

It was too late to save the farmhouse, Chief James Stearns and the two companies that answered the call discovered, and they concentrated their efforts on saving the other buildings. Furniture had already been removed from the house by neighbors. Total damages were estimated at \$5,500.

Bristol firemen, who had been summoned first but were in need for relief after having fought a Bristol farm fire previously, were called upon by Chief Stearns to stand by in the case of a shift of wind to cause further danger to buildings at the McNamara place, while the Antioch men returned to their own territory.

While at Bristol, the Antioch firemen observed reflections of a fire in the direction of Lake Villa.

A check-up revealed that a large barn on the old Burnett farm south of Lake Villa on Route 21 was afire, but that the fire was being handled by the Lake Villa department. No call was received here.

The fire started at 8 p. m. when a kerosene lantern carried on the end of a stick by a member of the Herman Kessler family, which works the farm, slipped and ignited the hay.

Twenty head of cattle were saved, but all grain, hay and silage was lost. Damages were totaled at \$10,000.

Pioneers With Cash Could Buy Luxuries

When Illinois became a state in 1818, its pioneers at some points in the south, could purchase a wide variety of fine manufactured goods, most of which had come from large eastern centers, such as Baltimore, Philadelphia and Pittsburgh.

In one account of those early times, research workers of the Illinois Writers' Project, W. P. A., noted an advertisement of a merchant at Carni in White county, who was opening a new store. Among the articles he offered were, tea kettles, ivory and common combs, silk handkerchiefs, India muslins, stationery, window glass, sieves, grindstones, hand saws, dutch ovens, frying pans, "and a great variety of cutlery."

Another early advertisement shows that settlers could find a market close at home for some of their own products. One storekeeper announced that he would pay cash for "tallow, candle cotton, turnips, soft flax for wicks, onions, parsnips, carrots, venison, hams, butter, cheese, eggs, potatoes, hops, eggs and twilled bags."

Illinois Bumper Crops Noted by Early Scribe

Soil of many Illinois counties gave remarkable yields of grain years ago. The Montgomery County Herald on Aug. 8, 1857, says the Illinois Writers' Project, W. P. A., reports that Moses Berry threshed out 708 bushels of oats from 12 acres and "not all the grain was threshed so it ran not less than 60 bushels to the acre."

The market report for 1857 from the town of Hillsboro listed oats at 40 cents a bushel and corn at 50 cents. Eggs were eight cents a dozen.

Auto Damaged

An automobile belonging to Hazel Fawcett, Lake Villa, was struck by one of which Henry Lee Bailey, Great Lakes, was the driver early Saturday morning in Waukegan. The Fawcett automobile was parked at 1621 Sheridan road in North Chicago when Bailey, driving south on Sheridan road in North Chicago, ran into it, crashed into it. A passenger in Bailey's car received bruises and non-injury minor injury 30 and other minor injuries.

Retired Restaurant Man Dies at Home After Week's Illness

Coming as a shock to his many friends in Antioch, as well as to neighbors at Camp Lake, was the death of Clarence E. Howard, retired restaurant manager, Tuesday morning at 4 o'clock.

Funeral services were held this afternoon at 1 o'clock in Strang's funeral home. Burial was in Elmhurst cemetery.

Mr. Howard was born April 12, 1892, in Chicago, the son of Mr. and Mrs. Joseph Howard.

Both he and Mrs. Howard were well known in Antioch. Last spring, they completed the construction of a new two-story building at 900 Main street. A part of the building was devoted to Howard's White Oak restaurant, now Atkinson's restaurant. The other store space has been used for mercantile purposes.

The color guard of the Antioch American Legion post, of which Howard was a member, took part in the funeral services here, and Legionnaires acted as pall-bearers.

Prairie Schooner to Sky Liner

Sometimes we find ourselves saying that Americans are like no other people on the face of the globe. It isn't merely a narrow national pride that produces this attitude either; it's simply the fact that our particular advantages in possessing individual freedom have made us more adaptable, better able to move ahead, and also better able to accept change as it comes.

These reflections occur naturally to mind upon reading a recent news item from New York City about the arrival by airplane from the West of an 82-years-old American woman who had made the trip the other way many years ago in a covered wagon. Besides being an indication of the great progress this country has made in less than one lifetime, the story helps to picture that pioneer spirit that is part of most Americans and has made our forward progress possible.

"I'm not afraid of anything," the intrepid passenger told reporters. Why, I told my husband years ago that one day the skies would be full of flying machines and that I'd like to ride in one. I'm certainly thrilled to think that I jumped from a covered wagon to an airplane in one lifetime."

The spirit that has brought America so far along the road of progress is as strong as ever. There's testimony to prove it!

For every 100 officers and men in the regular army, the War Department today has 58 civilian jobholders.

F. D. R.'s "Strong Desire"

Pipe-lines direct from Washington bring word that we may expect America to be at war within six months. Certainly we are drifting that way.

True, the President has recently proclaimed his strong desire and firm intention to keep America out of war. But he once gave his solemn word that he would reduce taxes—and he failed.

He gave his word he would reduce government expenditures—and he failed.

He gave his word he would end the Federal deficits—and he failed.

He gave his word he would make recovery his primary aim and that he would end depression and unemployment—and he did not.

He promised to keep politics out of relief and to take the Federal Government out of the business of relief—and he failed.

He gave his word he would reduce the Federal bureaucracy and stop Government competition in business—and he failed.

Will he keep America at peace?

If he does it will be because a vigilant and clamorous public opinion demands it.

Some 22,000,000 people are still receiving some form of government relief.

A new rule in the New York WPA Writers' Project requires that each "writer" shall produce a daily minimum output of 300 words!

President Roosevelt's government reorganization added 47,187 civil employees to the Federal payroll during the first four months of operation.

No doubt about it . . . your home has a chronic case of

INADEQUATE WIRING AND OUTLET STARVATION!

Better take advantage of today's low prices
and terms on wiring and outlets

HERE ARE THE SYMPTOMS:

DIM LIGHTS—If your lights fade when you attach an iron or some other electric aid, or if the iron takes too long to heat—that's a sure sign that your present wiring is inadequate.

BLACKOUTS—In many cases such overloading of the circuit results in a complete blackout of all lights and appliances. Then a new fuse must be installed, but the same thing may happen again.

CORD NESTS—A sure symptom of insufficient outlets. Caused by trying to plug in lamps, radio, iron and electric train all on one outlet. Very inconvenient—and unnecessary.

... AND HERE IS THE CURE!

See your wiring contractor or Public Service Company representative—ask about the special low prices and terms that make it easy to have modern, adequate wiring and additional electric outlets in your home.

Why gamble! Why try to get along on wiring that's out of date and fails to deliver enough electricity for your needs? It's not only inconvenient, but costly, too. For when you draw too much current from one circuit at one time, you lose power along the wire—and fail to get all

the electricity you pay for. . . Your friendly electrical contractor has an easy remedy for just such a condition. See him—ask about installing one or two appliance circuits to an adequate number of electric wall outlets. It's not an elaborate task—and the cost is now amazingly low!

... AND ELECTRICITY
IS CHEAP!

THE CHRISTIAN'S CONFESSION OF FAITH

LESSON TEXT—Matthew 16:13-24.
GOLDEN TEXT—Thou art the Christ, the Son of the living God.—Matthew 16:16.

Many outstanding miracles had been performed by our Lord during His ministry in Galilee, and now as that period of His earthly work was drawing to a close He went with the disciples north into the great heathen center, Caesarea Philippi. Here He asked them life's greatest question, "What think ye of the Christ?" and Peter, blessed of God with true utterance, became the instrument for that confession of Christ upon which He could found His Church. Then there came from His blessed lips the prophecy of His death and resurrection which would make it possible for all who believe to become the sons of God and members of that Church.

I. The Question—Who is the Son of Man? (vv. 13-17).

The question of Christ was general at first, and in the answer we find that the people of our Lord's own day had a very high opinion of Him. They saw in Him the combined merits of the outstanding characters of their generation. They knew that He was no ordinary individual. He had made a striking impression on His own age, as indeed He has on every age of human history.

Observe carefully that such a confession of Christ is not sufficient. It is not enough to acknowledge Him as the great teacher, the perfect example, or the way-shower. To deny His divinity, to take from Him His place as Son of the living God is to make of Him an impostor and a fraud.

The personal question which follows, "Whom say ye that I am?" is the supremely important question from which no man can escape. Neutrality is impossible. Whatever we do or fail to do declares our position. "What think ye of Christ?" is the touchstone which determines character, condition and destiny.

Peter by the grace of God had come to the place where he recognized the one with whom he was having blessed fellowship in service as the Messiah, the Anointed One, the Son of the living God. We too should be so responsive to the guidance and control of the Holy Spirit that He may be able to teach us spiritual truth, which flesh and blood can never reveal.

II. The Church—Its True Foundation (vv. 18-20).

Christ, the Son of the living God, is the rock upon which the Church is built. The confession by Peter of this fact is in response to the question of Christ, "Whom say ye that I am?" and hence clearly relates to Christ, not to Peter, or to anything in Peter's personality. He was indeed blessed in his confession of Christ, but it is Christ who is the rock upon which the powerful and glorious Church is founded.

It follows without possibility of denial that only that organization which truly represents Jesus as the Christ, the Son of the living God, has any right to call itself a church. Countless are the groups calling themselves churches which are nothing but social or intellectual clubs with possibly a slightly religious flavor, for they deny the deity of Christ. Why are they not honest enough to take their proper names and their rightful places in the community? Is it because they wish to have the financial support of God's people and bear the good name of the Church?

III. The Cross—for Christ and for Me (vv. 21-24).

The shadow of the cross falls across the little gathering of disciples as the Lord tells them of His impending death on the cross. Note that He rightly coupled with the fact of His death the truth of the resurrection, which gives it true meaning and which carries us beyond the darkness of Calvary to the light and beauty of Easter morning.

Peter who had a moment before spoken for God, now becomes the mouthpiece of the devil. From confessing his Lord, Peter turned to tempting Him to avoid the cross. That he "meant well" does not excuse Peter's folly, nor does it excuse the blundering though well-meaning misdirections which many are giving to the souls of men in our day. Had Jesus yielded to the solicitation of the Evil One through Peter, there would never have been any redemption from sin wrought out on Calvary's cross.

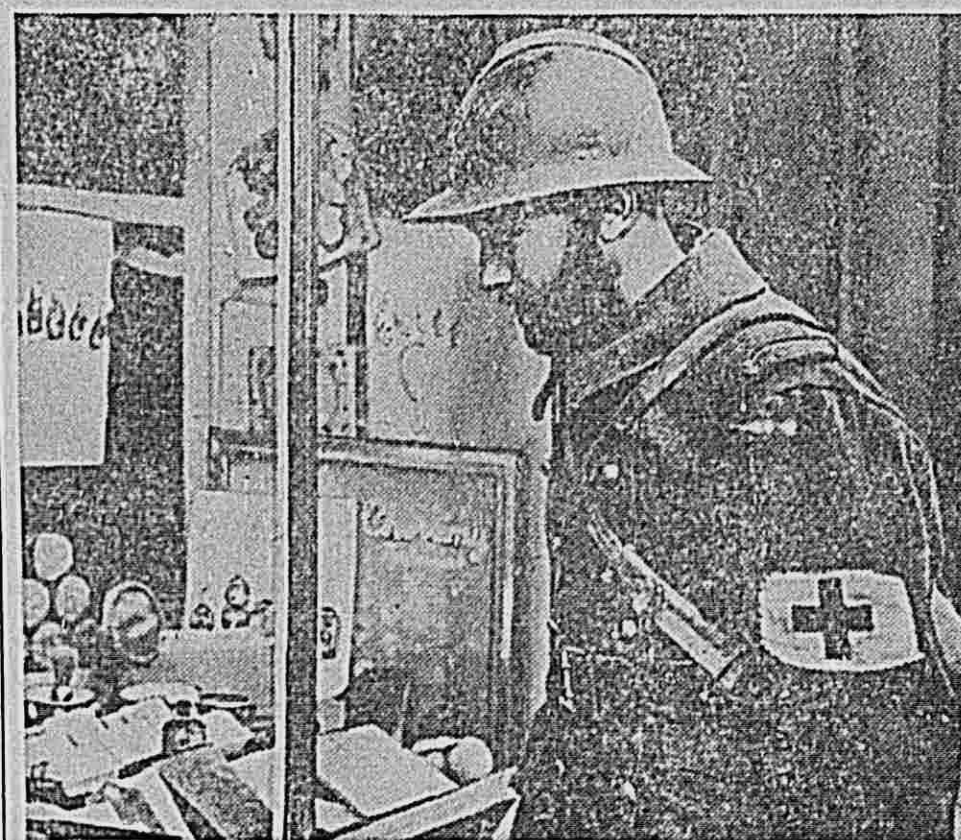

But we observe in verse 24 that there is a cross for the Christian as well as for Christ. Obviously we can never bear His cross, He alone could do that, but we are to take up our own cross and deny ourselves and follow Him. Self on the cross—Christ on the throne—such is the secret of real discipleship.

Meet 'Josephine,' 900-Pound Champion

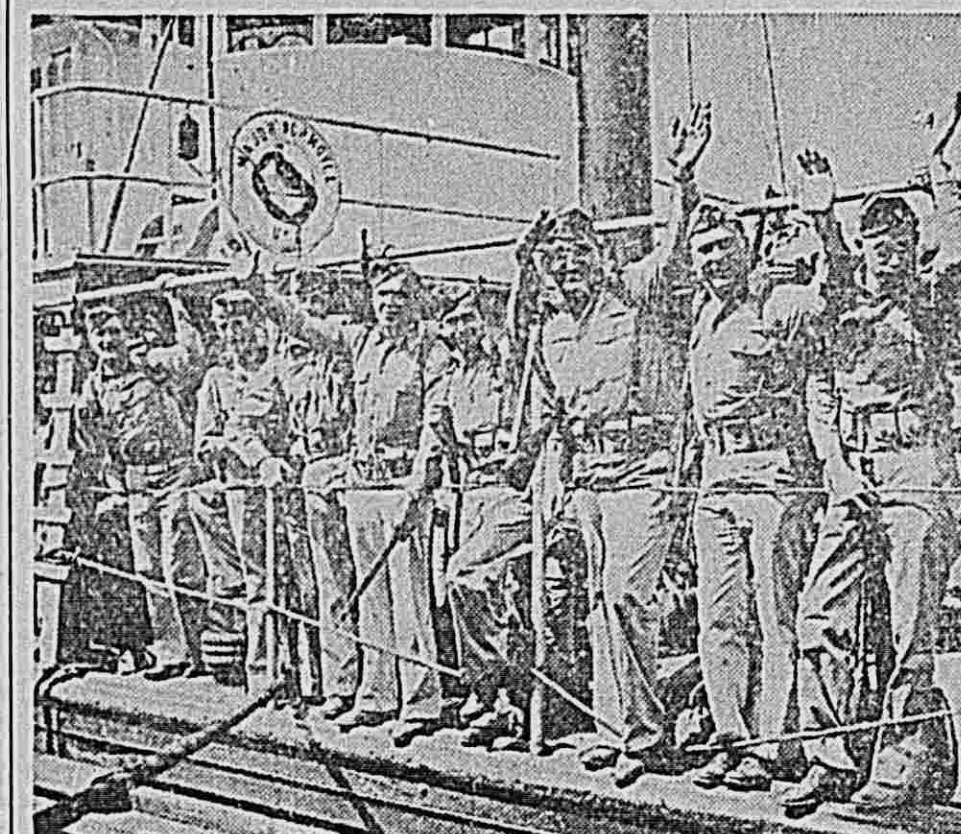

"Josephine," 900-pound three-time champion Poland China hog, gets a long drink of water from four-year-old Marlene Cattle. Josephine attracted more than her share of attention when she was entered in a Los Angeles live stock show. She weighs about 20 times as much as her diminutive caretaker, but obeys orders readily, especially if there's food in the offering.

War a Minor Problem to French Poilu

Maybe this bearded French Poilu was window shopping for Christmas. Or maybe he just wished he had a razor and a piece of soap. Anyway, he's gazing wistfully in the window of a perfume shop which is located, of all places, at the front lines. The French censor forgot to explain the front line perfume shop. It has been a rather unusual war, and maybe the soldiers have time for life's finer things.

U. S. Gunners Bolster Canal Defenses

Anti-aircraft troops of the Sixty-second coast artillery on board the army tug "Major Normoyle" on the first leg of their trip to the Panama Canal Zone, where they will bolster this country's defenses. The troops later transferred to a U. S. army transport off the Brooklyn army-base.

'Somebody Please Throw That Man Out'

When the cameraman surprised Countess Barbara Hutton Haugwitz-Reventlow, left, and Bob Sweeney, her new heart interest, while dining in a New York hotel, their companion, Countess Dorothy DiFrasso, jumped to the rescue and threw her fur piece over "Bab's" face, requesting that the cameraman be thrown out. Sweeney was too busy ducking.

Queen of Roses

Queen of the Tournament of Roses at Pasadena, Calif., is Margaret Huntley, 18, Pasadena Junior college coed. Six other college girls comprise the royal court. Queen Margaret is five feet five inches tall and weighs 112 pounds.

Sky Beauty

From the Files of The Antioch News Jan. 4, 1900

Shadows of past history walk across the pages of this issue—

The ambitious scale, promising returns of \$10,000,000, upon which John Alexander Dowie proposes to build his city of Zion, near Waukegan, was illustrated yesterday afternoon by three charts which he exhibited to the faithful who attended baptism services in the Tabernacle on Michigan avenue, Chicago. The masterpiece of the proposed municipality was pictured as a temple of royal magnificence, to cost not less than \$1,000,000 and to occupy the center of a 240-acre park overlooking the lake.

"The Sea King," a novel of the War of 1812, by Captain Marryat, was running in serial form in the Antioch News.

The London Morning Post gives the particulars of the escape of its correspondent, Winston Churchill, from Pretoria, (Boer War.) Churchill scaled the prison wall at Pretoria while a guard's back was turned and then walked through the city past the town pickets to the edge of town, where he boarded a freight train and hid himself under coal sacks till it arrived at Delagoa Bay, sixty hours later.

Terse journalism at the start of the century—

The big drainage canal at Chicago was opened Tuesday and the waters of Lake Michigan are now on their way to the gulf, bearing with them a considerable portion of Chicago sewerage. The big ditch was opened without any particular ceremony by the drainage canal commissioners and probably will cause litigation by St. Louis and other towns affected.

Mrs. James Elsbury, who lives just west of Gurnee and whose husband was one of those who perished on the White Star liner Titanic, stands very little chance of ever collecting damages from the company, according to her attorney, C. C. Edwards.

In Staunton, Va., the city of his birth, President-elect Wilson announced the gospel of his coming administration Saturday night. It is, "The men who serve will be the men who profit." The president-elect was talking of the practice of rolling up millions of dollars by rigging the markets or through a monopoly by which all competition is stifled. This condition, he said, is going to be changed. During his speech Governor Wilson predicted early independence of the Philippine Islands.

The war between the Turks and the Bulgarians, centering around besieged Adrianople, had been brought to a close.

LAKE VILLA

(Mrs. C. B. Hamlin, Correspondent)

The barn on the farm occupied by the Keisler family, formerly known as the Freeman Burnett farm, was entirely destroyed by fire early Monday evening when a lantern accidentally overturned, set fire to some hay and spread so rapidly that all that could be done was to get the horses and cattle out, and save a few pieces of machinery. They had no telephone so the fire alarm was given by Carl Bock who was passing by, but all that the fire department could do was to save adjoining buildings. The fire was quite a loss to Mr. Keisler, as all his

hay and grain was stored there, and he lost a stack of soy beans besides. His stock was moved to the barns of neighboring farmers.

Mr. and Mrs. Fred Hamlin and John Nader spent Sunday and Monday with relatives at Cicero.

Mr. and Mrs. Louis Galiger are receiving congratulations on the birth of a daughter, Barbara Ann, last Thursday at Condell hospital at Libertyville.

Leo Barnstable has been very ill during the past week, but we are glad to report that he is improving.

Mr. and Mrs. Russell Nickerson and Ronald returned Sunday from Galena, Ill., where they visited Mrs. Nickerson's relatives over Christmas.

The fire department was called out Sunday afternoon to the home of Mr. and Mrs. Jens Rodbro, who live in the Stratton house, when fire was discovered in the clothes chute, but was discovered in time to save the house and furnishings, though Mr. and Mrs. Rodbro lost a great deal of clothing.

The Rev. and Mrs. I. B. Allen entertained the Church Board at a Christmas party at the parsonage last Friday evening, and showed many pictures of interesting happenings and events.

CHRISTIAN SCIENCE CHURCHES

"Christ Jesus" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, December 31.

The Golden Text was, "I am the light of the world: he that followeth me shall not walk in darkness, but shall have the light of life." (John 8:12)

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The people that walked in darkness have seen a great light: they that dwell in the land of the shadow of death, upon them hath the light shined. For unto us a child is born, unto us a son is given" (Isaiah 9:2-6).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christ expresses God's spiritual, eternal nature. The name is synonymous with Messiah and alludes to the spirituality which is taught, it is illustrated, and demonstrated in the life of which Christ Jesus was the embodiment. The advent of Jesus of Nazareth marked the first century of the Christian era, but the Christ is without beginning of years or end of days" (p. 233).

LAKE VILLA YOUTH SINGS IN QUARTET

A critic in Elgin recently wrote of this quartet, "Not since the days of The Revelers have I heard such a rich blend of male voices. These young men are certainly versatile artists."

The Fireside quartet plans to make appearances in this territory later in the season.

Sydney sang in the chorus of 630 voices in Handel's "Messiah" which was directed by Frank B. Jordan, dean of the School of Music, Illinois Wesleyan university, Bloomington, and was produced at Normal, Ill., at 7:30 p. m. Dec. 17.

Hughes, a sophomore at Wesleyan, was graduated from Antioch High school in 1938.

Births

Mr. and Mrs. Willard Scott, Gurnee, are the parents of a daughter born at Victory Memorial hospital Jan. 2.

Mr. and Mrs. Carl Siminik of Round Lake Beach are the parents of a son born at St. Therese hospital Dec. 30.

Mr. and Mrs. Peter Geier of Chicago spent New Year's Day at the Nels Nielsen home.

Now that the celebrating is all over, we hope that Waukegan won't leave those Christmas decorations up all the rest of the year. . . . They HAVE to be taken down a little earlier in Antioch, so as to be out of the way of the Lions' festival next summer.

New Years' and Leap Year bring in all those old gags about the poor bachelors taking to cover so as to get away from women's wiles. We haven't seen any that seemed to be fleeing so very fast, as yet.

One thing about all this fresh air outside. It's awfully nice to get in out of it.

That fellow who "Didn't Know What Time It Was", must have received a watch for Christmas. We haven't heard him since.

Every once in a while we get kind of fed up and think everything is the same old story, what with fighting going on over in Europe and nothing new going on here either. And it's then that we appreciate life's bright spots, like a well known Chicago paper using 50 pounds of perfume in the ink to sweeten up an ad in one of its recent issues. . . . But we can't help wondering what the back room on said C. p. thought about it. . . . Think of the latitude for typographical errors perfumed ads would allow. Or the in-harmonious possibilities, like placing an odor-of-violets beauty shop ad alongside of a gasoline-and-exhaust fumes garage ad. Ladies' dress shops could use Paris perfumes, of course, and grocery and meat market ads would be easy, but what the heck could the jewelers and the hardware merchants and electricians do about putting "scent appeal" into their ads?

Merry Christmas

The Illinois State Employment service mailed out its Christmas greetings in franked envelopes. Postal officials, investigating, are now demanding that the employment service foot the bill at the usual mailing rates. Christmas greetings, they say, don't come under the head of "official" government business. . . . especially at the taxpayers' expense.

Ernest A. Atherton, veteran salesman for a Chicago paper company who has been calling on the Antioch News for more than 20 years, permits some of his best friends to "borrow" his summer cottage, "The Oaks," at Belding, Mich., occasionally. But his being a "perfect host" goes further than that, we found out the other day when we chanced across one of the little printed folders he gives them. On the back is a detailed road map showing the area around "The Oaks," and how to get there.

It may be just a coincidence, or maybe it's the holiday spirit, but no sooner did word get around that the census takers were on their way than livestock around here started doing their part to make a good showing for Antioch. That cow on the Christ Paulson farm at Hickory Corners started it by having twin calves on Christmas morning. And when Census-taker John Horan wended his way out toward Channel Lake this a. m. he was notified, among other interesting information such as falls to the lot of census-takers everywhere, that a mama pig on the Tom Runyard farm had finished up the old year in fine style and made a pretty good start toward the new one by producing a litter of—count 'em!—seventeen little pigs. Thirteen, we are told, is a large batch of piglets to arrive at one time, but seventeen is super-colossal. It must be the climate.

(P. S.—As you know, census information is supposed to be confidential, and John asked us to keep this so, too, so don't let anyone know we told you.)

HICKORY

Mr. and Mrs. H. A. Tillotson entertained for dinner on Thursday Mr. and Mrs. George Rohr of Kenosha and Mr. and Mrs. Clare Scoville of Lake Mills, Wis.

GRASS LAKE

MANY GALA PARTIES GREET THE NEW YEAR

1940 was welcomed in a big way by most of the Grass Lake folks. Mr. and Mrs. Rudy Strametz celebrated in Chicago. Mr. and Mrs. Louis Nielsen closed up their Phillips 66 station and as is their custom every year, made the rounds to wish their many friends a Happy New Year in person. Mr. and Mrs. William Dunworth and Mr. and Mrs. Joe Sterbenz were among those who accompanied them. Mr. and Mrs. Louis Duda celebrated with all their friends at Little America. At Haling's Resort folks greeted the new year amidst streamers of confetti, balloons and noisemakers. Harold Wohlfel, spent New Year's Eve in Chicago with his brother; Mr. and Mrs. John Steitz had friends from Chicago over to help them see the New Year in with appropriate celebrating. Mr. and Mrs. A. Carlson spent the holidays in Chicago with their children. Mr. and Mrs. Charles Smith and family saw the New Year arrive in California and report that "next to Grass Lake, we like California." Mr. and Mrs. Davidson were in Clearwater, Fla., and have written that the poinsettias were in full bloom for the holidays down there—which made up for the lack of snow which they wouldn't have seen anyway, had they spent Christmas here at home.

ENJOY HOCKEY GAMES ON HALING'S CHANNEL
Among the players engaged in an exciting hockey game every afternoon on Haling's channel are Jack and Bill Radtke, Trudy Yopp, the Collins boys, Jimmy and Buster Roepenack, Ray Kiefer, Ralph Trieger, Clara Haling, Chick Rothers. Trudy Yopp and your correspondent are the only members of the weaker sex who play, but so far we're holding our own and have come through with only a few scratches and bumps. Two of the smallest boys, Roy Kiefer and Ralph Trieger, are outshining the older players and are sure bids for future stardom. The games are close and exciting, the last three games ending in scores of 3-2; 10-7; and 4-2.

TOROGGAN SLIDE WILL BE READY SOON

John Steitz has announced the toboggan slide at his place on Bluff lake is nearing completion and will be ready by the end of this week. Everyone is welcome to use the slide but you must have your own sled or toboggan.

CULBERTSONS AT REUNION IN OHIO

Mr. and Mrs. Jim Culbertson celebrated New Year's in Cleveland, Ohio, at a family reunion where over fifty members of their family gathered. They returned home Monday night.

Infant son of Mr. and Mrs. Clarence Verkest, which has been kept in an incubator since its birth, was brought home on Saturday and is doing very nicely at the present time, weighing five pounds now.

Mrs. John Lucas and baby son returned home Saturday from the hospital.

In last week's paper we forgot to mention some of the folks who entertained Christmas guests so we will mention them now:

Mr. and Mrs. Al Michaelis were in Chicago visiting their children over Christmas and New Year. Mrs. Michaelis returned home but Mr. Michaelis remained in the city.

Mr. and Mrs. H. Moore and Mrs. M. Strametz were Christmas guests at the home of Mr. and Mrs. Rudy Strametz.

The fire at the John Radtke home Sunday caused quite a bit of excitement, but did little damage.

Mr. and Mrs. Roger Flint and Mr. and Mrs. Robert Seeloff were dinner guests at the home of Mr. and Mrs. Jim Culbertson for Christmas.

Attendance at Alumni Events Proves Large

Banquet on Thursday and Basketball Friday Lure H. S. "Old Grads"

Both the annual Alumni banquet held at Antioch Township High school last Thursday evening, and the Alumni basketball game and dance on Friday evening were highly successful. One hundred attended the banquet, served at the Roundup, where decorations were in Christmas colors.

Home LaPlant, toastmaster, introduced as speakers, R. H. Childers, athletic director at the school, Paul Chase, school board member, and a number of alumni.

Possibilities of a return of football to the high school sport roster were discussed by Childers. He stated that in the event football games are scheduled, care will be taken to see that opposing teams are of the same caliber, and that all playing equipment will be of tested reliability.

School board policies in the direction of high school affairs were the topic taken up by Chase.

Among those giving alumni talks were Clayton O'Haver, Harry Petzke and Armand Dalgard.

Willard Murphy was general chairman in charge of the banquet.

Trevor Hockey Team Is Winner over Lake Forest

Hockey is the latest winter sport to draw a following, with the arrival of colder weather.

The Trevor Redwings scored a brilliant 5-4 victory over the Lake Forest Reds in a hockey game Sunday afternoon at Rock Lake. The Trevor team played a good game, although their training season was short, due to the late arrival of winter weather. Trevor defense worked with remarkable effectiveness, especially during the last part of the game. The offensive stars were Skeets Oetting and Freddy Keylar. Oetting scored four goals while Keylar did some brilliant passing. Arthur Carpenter scored the other goal on a beautifully executed play. The Lake Forest goalie's shoulder was dislocated and he was unable to finish the game.

Antioch High to Play Willmot Here Tonight

Antioch High school basketball players will meet Willmot in a game here this evening. Friday night they will go to Barrington for a conference game.

On Tuesday evening, Jan. 9, Antioch will play Warren Township High, and on Friday evening, Jan. 12, Bensenville High.

Both games will be held here.

Farming Not Easy

Successful farming is not easy. It requires much experience in doing the various kinds of farm work and the ability to show others how to do this work. It requires training in business management and knowledge of the principles of plant growth, the feeding and care of animals, and the maintenance of soil fertility. Few industries require such a wide range of training and experience. Farming is not simply growing a particular crop or feeding a certain kind of live stock. It is an all-the-year-round business, involving the production of various plants and animals and the successful organization of the varying farm enterprises into a smoothly working unit.

Farming Briefs

After only 100 years of extensive cultivation, this country has destroyed, seriously damaged or threatened with destruction an area equal to all land from which crops are normally harvested.

Added steps in processing food to prepare it for the consumers' tables reduce the farmer's share of the food dollar. Wage scales paid by food processors were twice as high in 1933 as in 1910-13. Slicing bread before it is sold and putting farm produce in small packages are two of the later developments in processing food.

For more than a year farm products exports from the United States have been rising and imports falling.

The good poultryman is never too busy to keep after the lice and mites that increase so rapidly in the warm days.

Since the relationship between the price of milk and the cost of grain is favorable, dairymen should feed all the grain their cows will use efficiently.

Red Cross Worker

Helen Keller, famous blind scholar and lecturer, has her new Red Cross bonnet adjusted by nine-year-old Betty Lou Morris. Miss Keller added to her other activities by joining the organization at the roll call workers' rally held in Philadelphia.

'Tiny' Takes Over

Gen. Edmund Ironsides, former director-general of England's overseas forces, was recently named chief of the imperial general staff to succeed General Viscount Gort, who became commander-in-chief of Britain's land forces. General Ironsides is affectionately called "Tiny" by British Tommies.

Suede Plays an Important Role In Wardrobe of the College Girl

By CHERIE NICHOLAS

AGAIN comes up that ever recurring problem—clothes befitting fall and winter activities, formal and informal and for all occasions in between. Campus doings, the football series, evening festivities, motoring, travel, town-wear outfits, the well-equipped wardrobe must be built around all these fashion demands. And here's big news! Everyone of these issues is being met with fashions in suede.

Every college girl, in fact every woman who aspires to the best that fashion has to offer, should reckon, in fact must reckon, with suede as one of the factors of high importance in the assembling of a wardrobe. What leather workers, designers and style creators have succeeded in doing with suede deserves to be classed with the seven wonders of the world.

Suede has that something about it that lures you on to indulgence, especially this season when the hats, bags, neckwear, belts and countless other accessories are made of it, coats and suits tailored of it, daytime one-piece frocks, the evening gowns and wraps fashioned of it, surpass all previous showings. According to Paris cables and reports of returning buyers this is going to be the biggest suede season ever.

The fact that you can get anything you want these days fashioned of suede from sports togs to evening attire adds to its lure. Then, too, with the tang of autumn in the air comes the urge for clothes that tune to the colorful landscape and as every woman knows when it comes to rich beautiful colors there's nothing in fashion media that can surpass suede. Note the wide scope of coat and dress types expressed in terms of suede as here pictured.

A coat such as shown to the left will grace any grandstand occasion, at the same time that it flings a defy to biting winds on a frosty autumn day. This model is of duck green suede. Jean Parker, featured screen artist, wears it. Self lacing gives the hand touch to this handsome practical coat, the lacing ap-

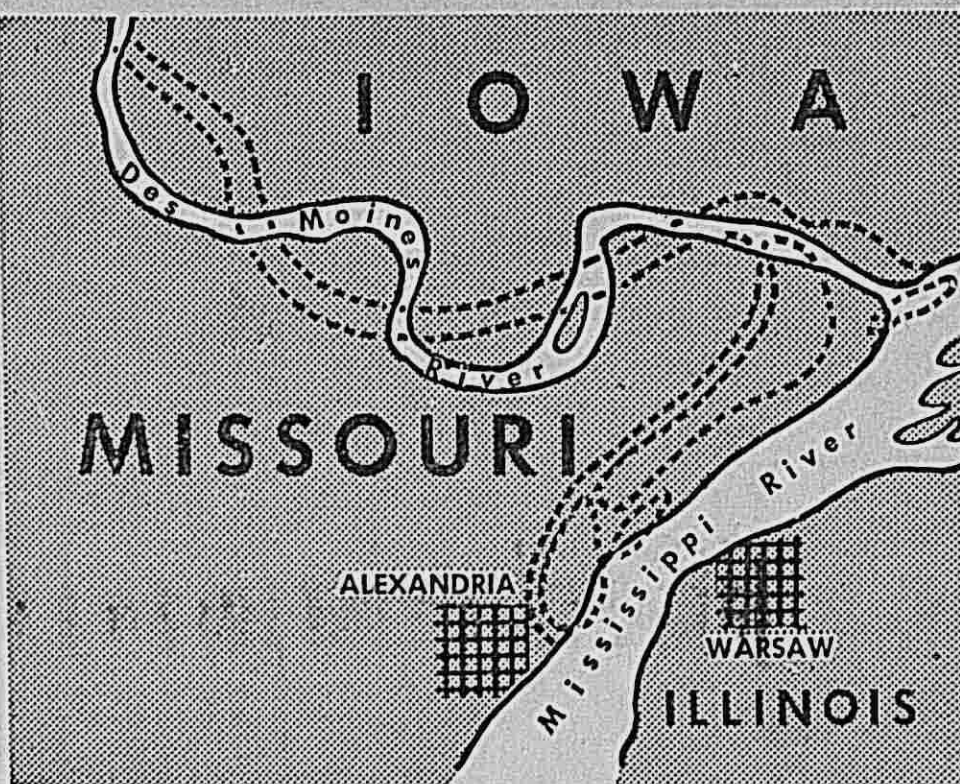

plied to pockets, front, shoulders and sleeves. Handcarved matching buttons are used for the high double-breasted line. The demure Peter Pan collar, padded shoulders, huge patch pockets and back flare are smart notes. The flowerpot crown bonnet in wood violet suede matches the casual double pouch bag and stitched slippers.

This same screen artist also selects a dress of suede. See it centered in the group. This one-piece frock, in an adorable dahlia red, boasts patch pockets on the simple bodice with an overlay bow of matching suede. The skirt, in four sections, has a slight flare at the hemline. With this costume by Voris of Hollywood, Jean wears gloves that match her dress in exact tone, and her hat (not pictured) is a visor type of moss green suede.

The suit to the right is a likable affair. It is done in amber suede which offsets the Mojave brown of the high-neck blouse, which in turn matches the swagger hat with high crown. A copious purse of suede a shade deeper than the suit complements the ensemble.

The East Indian influence in fashion is reflected in the dinner frock of robin's egg blue suede shown in the inset. It is worn by Joan Perry. The belt is in blue and dusty pink. A sparkling massive gold bead necklace adds the finishing touch. (Released by Western Newspaper Union.)

Missouri-Iowa Boundary War Nears End

A hundred-year boundary war between Missouri and Iowa, cause of the ludicrous "honey war" of 1839, ends on New Year's eve when 200 acres of Missouri land goes to Iowa and 2,000 Iowa acres are given to Missouri. The trouble was caused by a change in the Des Moines river, boundary between the two states. Map shows the river's present course, while dotted lines indicate the route 50 years ago.

Hitler 'Honored' by British Tommies

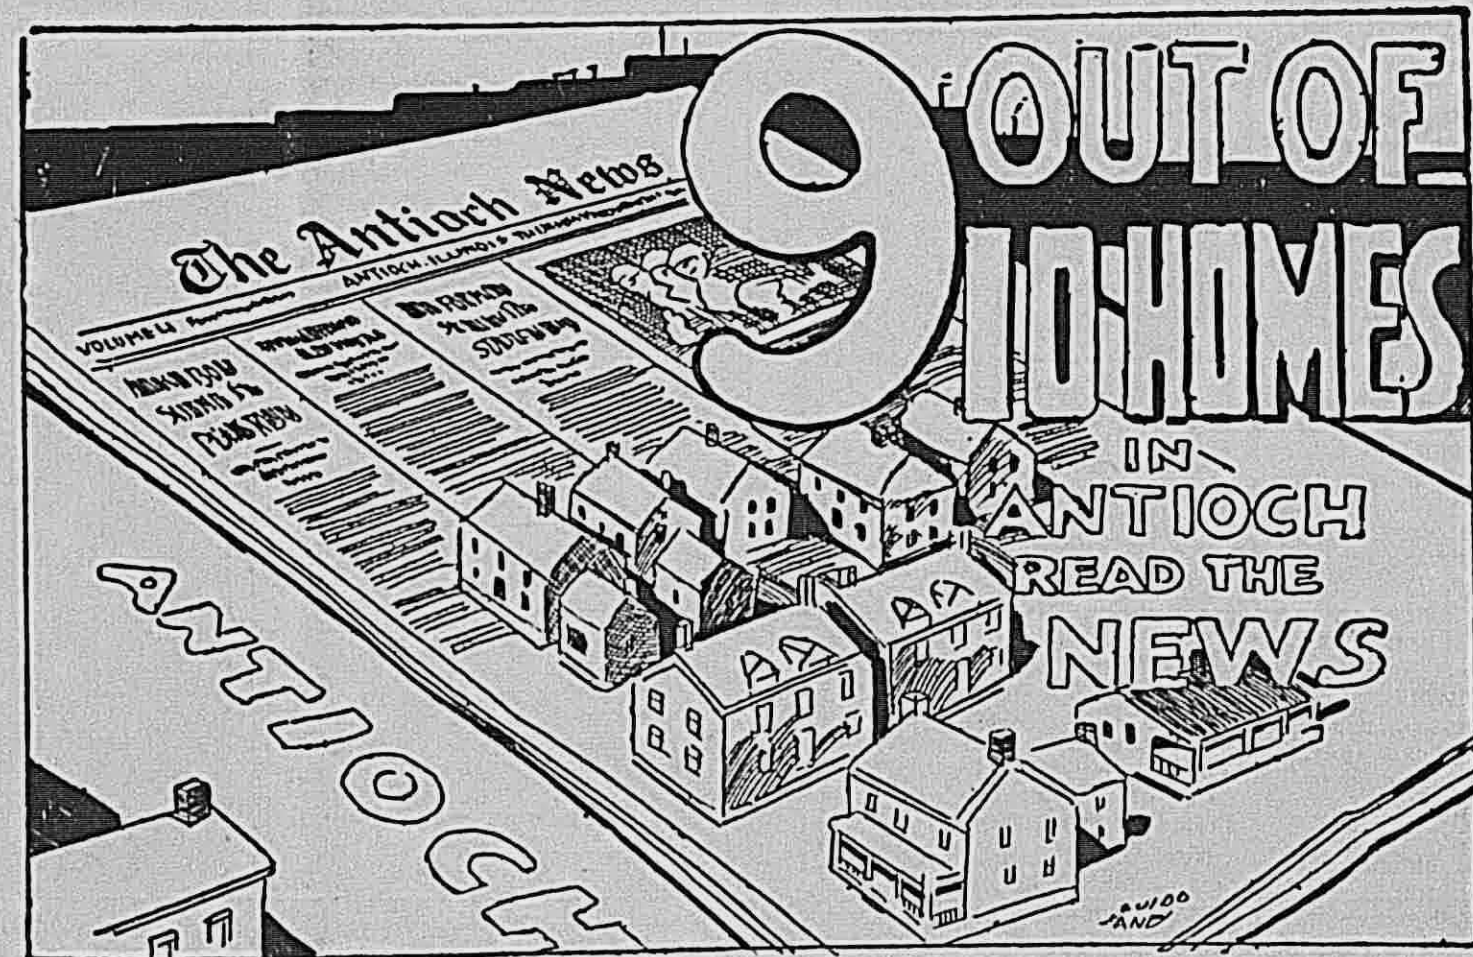

As visual proof that England's humor isn't dead, these members of the London balloon barrage, trying to select a suitable name for their canteen, decided that "Berchtesgaden" would be just the thing. Berchtesgaden, Germany, is the Bavarian retreat of Adolf Hitler.

A royal Hawaiian welcome is given Jack Dempsey by Duke P. Kahanamoku, famous swimmer and official greeter, and a bevy of Island belles as the former heavyweight champion disembarks at Honolulu. The beverage, incidentally, is pineapple juice.

WEEKLY NEWS ANALYSIS BY JOSEPH W. LaBINE

Short Congress Held Unlikely As Controversial Issues Arise; Farm Tax Fight Splits Cabinet

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union.

What They're Saying About:

Third Party

WASHINGTON wiseacres see trouble ahead for the LaGuardia-Ickes-Murphy "third party" movement which would presumably draft President Roosevelt to run again. Reason: All third party movements have failed, the nearest thing to success coming in 1912 when Theodore Roosevelt started the Bull-Moose-Progressive movement after losing the G. O. P. nomination. This campaign divided the opposition (G. O. P.) and enabled Democratic Woodrow Wilson to win. But this year the G. O. P. is united, and a third party would split the Democrats, thus aiding the Republican cause.

Reich Wrecks

Germany's serious train wrecks are viewed as a good indication of the Reich's serious economic plight. Nazism's railroad extension and repair program has suffered since 1933. Meanwhile Hitler's economic program placed new burdens on the rails, clamped by heavy troop and ammunition movements since the war started. In the latest wrecks (nine in all since September 1) there were 162 killed and 139 injured—all within a few hours.

Tariff Walls

State tariff walls which discriminate against out-of-state products are apt to fall in 1940 if the Council of State Governments goes through with its anticipated program. At least 43 of the states (all except Arizona, Idaho, Missouri, North Dakota and Washington) already have interstate co-operation commissions which will begin holding sectional conferences.

DAVIES
New job.

Dies Blunder

Many in official Washington believe the Dies committee erred grievously in waiting until the last minute before releasing its report on alleged Communist penetration in the Hollywood motion picture colony. Reason: The un-Americanism hearings automatically ended when Congress convened, making it impossible to hold a public airing of the charges. With or without foundation, there is bound to be a complaint that persons named in the report have no opportunity to defend themselves. This will hurt the committee's drive for new funds.

Davies' Job

Anti-Roosevelt forces are making political capital out of the appointment of Joseph E. Davies, former ambassador to Russia and Belgium who has just been named "special assistant" in the state department. The current story: Davies is married to Mrs. Marjorie Post Close Hutton, cereal heiress, who reportedly didn't like the bleakness of Moscow when her husband was granted that ambassadorship for helping the Democratic war chest. Apparently disappointed when Joseph Kennedy was named ambassador to London, Davies was given Belgium as a consolation prize. Still dissatisfied, says the story, he was brought back to Washington and given the new post in an effort to keep the Davies-Post interests in line for 1940's election. Even if the story is true, Davies' knowledge of the European situation may nevertheless prove helpful to the state department. He has an intimate picture of the Moscow situation.

Both Mr. Hull and the President have vowed a last-ditch defense on this matter, which could easily produce a long and heated session. Importance: An administration defeat would mean that Congress favors Republican high tariffs, giving the G. O. P. an important foothold for 1940 in the important farm areas.

Labor Act. Recent hearings before the house committee investigating the National Labor Relations board will probably result in demands for revision of the act. Unhappy things were said about NLRB, especially those allegations of C. I. O. favoritism. Business and A. F. of L. are both demanding reforms.

RELIGION: Peace Drive

A marked theological flutter followed President Roosevelt's appointment of Myron C. Taylor, former U. S. Steel head, as his "personal representative" to the Vatican. Well-timed at the Christmastide, the President's message to Pope Pius XII, Dr. George Buttrick of the Federal Council of Churches and Rabbi Cyrus Adler, president of the Jewish Theological Seminary, sought to unite world spiritual forces in a peace drive.

Said Dr. Buttrick: "We share the President's confidence that men

DR. BUTTRICK
Shared the President's confidence.

and women in every land have a basic faith in God and therefore in human brotherhood, and that even in the present chaos . . . they are preparing a better day."

Down in Atlanta, Baptist Rev. Louie D. Newton questioned the move, asking (1) if Taylor's salary is to be paid by the government; (2) if Congress has passed such an enabling act; (3) if Taylor will consider the Vatican a religious or political body; (4) if the President has a right to send him.

Next day White House Secretary Steve Early announced the U. S. has no intention of according the Vatican the diplomatic recognition which was withdrawn in 1867, but pointed out that the President has a right to name an "ambassador without portfolio" with the same privileges as those enjoyed recently by Norman H. Davis, who acted as European trouble shooter.

THE WARS:

In the North

Already a queer war in which soldiers wear ghostly white robes and travel on skis, the Finnish-Russian conflict took on a new note: Finns sent their night patrols across frozen lakes on ice skates. Next day their field guns blasted holes in the ice as Russians began crossing. Soviet troops drowning like rats. Generally speaking, battalions of 600, superior Finnish divisions were holding off Russian divisions of 18,000 men, all the way from Petsamo on the north to the Karelian isthmus on the south.

But a month of such humiliation was enough for Russia's Dictator Josef Stalin. While the Finns chuckled over their success in penetrating Soviet soil almost to the Leningrad-Murmansk railroad, the Kremlin was reported throwing 300,000 fresh men into the fray under a new command. The officers were said to be Joe Stalin's "personal friends," who now have their choice of winning or being personal friends no longer.

In the West

Said a French communique: "There was nothing important to report . . ."

Said a German communique: "With the exception of weak enemy artillery fire, the day was quiet."

DISASTER:

Turkish Quake

At Geneva, London and many other points, seismologists found their seismographs awry, indicating an earthquake somewhere in the vicinity of southern Russia. A few hours later word leaked out of Ankara, Turkey. From the north, where Turkey borders the Black sea, came news of a major catastrophe in which upwards of 10,000 had probably died.

PEOPLE:

Royal Speech

Opening a parliament which must appropriate the largest budget in Japan's history, Emperor Hirohito

HIROHITO
"Improvement . . ."

hailed an "improvement" in foreign relations, yet indicated his army should make the most of Europe's war. "With the outbreak of disturbances in Europe, the . . . situation has become extremely complicated. You must therefore make a close study of conditions . . . and direct your efforts to expand the national power so the conviction of the empire may be realized . . ."

I-Told-You-So

Announcing a 20-year contract for sale of Bonneville (Wash.) dam's power to the Aluminum Company of America, Secretary of Interior Harold Ickes called it "a factual answer to those skeptics who claim there is no real demand for power" from government plants on the Columbia river. It was revealed Alcoa plans a plant at Vancouver costing several million dollars.

ICKES
"Factual answer . . ."

ASIA:

Army in the Saddle

U. S. business men in China were cold to Japan's announcement that foreign shipping in the Yangtze river would soon be resumed. This new concession would probably mean little; indeed it might never come to pass if the U. S. refuses a new trade treaty when the present Japanese pact expires January 26. But there was a growing opinion among Occidentals in the Orient that their biggest enemy was not the Japanese government of Premier Nobuyuki Abe, but rather the powerful army. Therefore it would be smart to play ball with Premier Abe, for his cabinet must fall if the trade talks fail. This would place the hostile army in command, leaving U. S. business men stranded. Some hint of the situation was dropped in Washington where Japanese Ambassador Kenesuke Horinouchi intimated that already his government must seek the approval of army officers in China before granting the U. S. any new concessions.

All for Safety

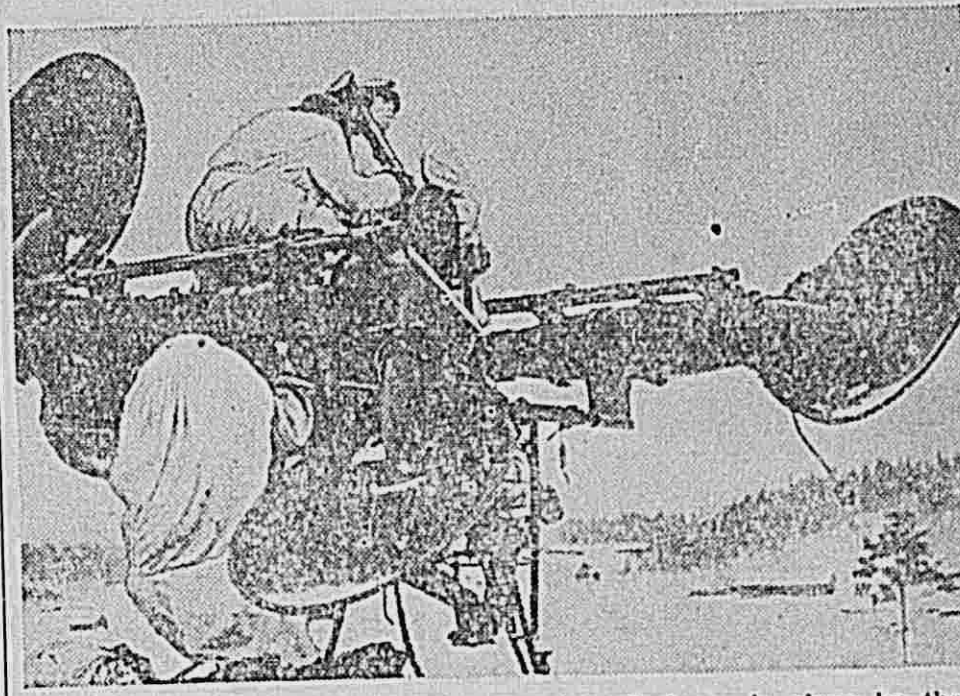

No—the picture isn't upside-down. This pilot is merely testing a new airplane safety belt at Wright field, Dayton, Ohio. The belt is protection against crash landings.

Now He, Too, Is Gone With the Wind

Seated before the typewriter in his New York home, Howard Rushmore writes his own exclusive story telling just why he resigned as movie critic of the Communist publication, the Daily Worker. He refused to criticize the motion picture, "Gone With the Wind," in his review and as a result was forced to quit his post. Rushmore's article exposed the "pressure" brought to bear by Moscow on the Communist newspaper.

The leg was amputated several weeks ago after doctors fought a losing battle to save it.

In Other Words—'Don't Disturb the Pilot'

This poster, distributed in Italy, shows Premier Mussolini at the controls of his bombing plane which bears the inscription: "The Italian people know that they must not disturb the pilot, especially when he is engaged in tempestuous navigation; nor ask notice of the route at every turn." The inscription, of course, applies to Italy's stand on the international situation. Italy's diplomatic course is not to be questioned by its people.

Germany's Big Guns Support Westwall

Being groomed by its crew is one of the heavy guns Germany has planted in various defense belts behind the Siegfried line to support a formidable string of fortresses. The gun, of unknown caliber, is in a pit dug out of a hillside. The guns are used to support the westwall, and not necessarily as a second line of defense.

Cigarette 'Tax' Insures Front Line View

Visitors to France's front line meet a new and delightfully different "instrument of war." They find they can pass into the line upon payment of a tax of one cigarette. Payment gives the right to view German lines by looking over the sand bags.

TRUTH about ADVERTISING

By CHARLES B. ROTH

JUST WHAT IS GOOD WILL?

A FEW months ago, according to that beguiling writer, Bruce Barton, a large factory caught fire. It burned to the ground. Sirens shrieked. Crowds milled. Firemen fought the flames. Newspaper reporters scurried here and there after stories. Consternation reigned. Amid all this confusion the most serene man in sight was the president of the factory, the man who should have been the most excited. Alighting from his car, he strolled over to where that which he had spent years in building was becoming a total loss. He was calm, at ease, undisturbed.

A newspaper man spied him, asked him why he was no more concerned. He explained that the loss was fully covered by insurance and that, besides, the most valuable asset of the business hadn't even been touched by the fire.

"To what asset do you refer, Mr. Burlingame?"

"Why, to our good will. We can build a new factory—now we'll have to. We can buy new machinery—better machinery than was in the old plant. As long as the good will of a business is intact, nothing else matters," he concluded.

He was right. The most impor-

tant thing a business man has is the good will of his customers. Every business which has that is successful; every business which does not have it fails.

Good will is not a mysterious quality like genius. It is a simple, commonsense matter depending upon doing simple, commonsense things.

The first of these consists of giving good value and service, that the business may win and hold friends. The second consists of making the fact that the business is the kind which wins and holds friends known to its customers, by telling them of its ideals and its services and its merchandise.

This telling process is called advertising. Whenever a manufacturer or a merchant advertises in the newspaper he informs you that he is the kind of business man whom it would pay you to patronize. He makes public the fact that he wants good will and that he realizes the only way he can keep it is by living up to his promises.

You as a customer get more for your money when you patronize a concern with good will. Good will is proof that the concern has done something to warrant the friendship and confidence of its customers.

You see, good will doesn't just happen. It is created—by good goods, by good service, by good advertising.

COUNTY SEAT NEWS

Mrs. Hazel Palo, 39, of Beach, died in Victory Memorial hospital Saturday night of injuries suffered in a collision Saturday morning.

Cole Ferry of Gurnee was sleeping in the back seat of his car parked in front of the Johns-Manville club New Year's morning while his wife visited friends in the club, when he awoke to find a stranger driving the car away at a high rate of speed. As the two men battled for control of the car, the vehicle plunged over an embankment on Greenwood avenue, a dead end street, to land on its nose on the North Shore tracks. The two men, both unconscious, were found by motorists shortly afterward.

A drop of approximately \$8,000,000 in the assessed valuation of the City of Waukegan is cited by Mayor Mancel Talcott as one of the reasons for the drastic cuts in the city's budget. The settling of more than \$540,000

worth of the city's floating indebtedness and the paying up of small bills was given by the mayor as another cause.

A two-story frame building in a protectionless area outside of North Chicago city limits burned to the ground early Saturday. North Chicago firemen were called but refused to answer because the house was out of their district.

Franco-British prestige in the Balkans was strengthened when Rumania's King Carol named George Tatarsu to the premiership, succeeding Constantine Argetoianu, whose cabinet resigned after refusing Germany concessions on oil and foodstuffs. End of Tiger Grid Star's Playing Career

Don Herring, inset, 21-year-old football and track star at Princeton university, is carried off the field after receiving an injury that resulted in the loss of his left leg. Examination revealed that ligaments below the knee were torn and three main arteries had been severed. The amputation was made necessary because of the danger of gangrene becoming acute.

Italian Cyclists Start New Travel Vogue

Bicycles don't use gasoline—that's why they're so popular in Italy. Here's a new design. The high wheel bike is reversed and the saddle is placed between the handlebars, which steer from the back. Notice the pedal arrangement on the bicycle at the right. The pedals do not make a full turn, but propel the vehicle by special gears.

That Was No Bearded Lady, It Was—

"Miss Frances Murphy," above, "bearded lady" at the New York fair, charged a gentleman named John Durkin tried to kiss "her" in a Manhattan subway. In felony court it turned out "Miss Frances Murphy" was really a man. Here "she" is shown in the police van, after being charged with perjury.

Bearded Explorers Demand Tonsorial Aid

When Commander Donald B. MacMillan arrived from an Arctic expedition with his crew of college boys at Boothbay Harbor, Maine, the first demand was for shaves—and not "once over lightly!" Hints for Homemakers
By Jane Rogers

DELICIOUS beverages to serve with paper thin cookies or fruit cake are always in demand when friends drop in during the winter holiday season. A supply of canned unsweetened Hawaiian pineapple juice kept in readiness in the refrigerator or pantry for just such occasions will delight your family and friends.

Pineapple nog is a refreshing, bubbly drink that will please the children, and it's so easy to make that they can prepare it themselves by the following directions: Beat 3 egg yolks until thick and creamy. Add three tablespoons sugar and continue to beat. Combine 2 tablespoons lemon juice, 2 tablespoons orange juice and 3 cups canned unsweetened Hawaiian pineapple juice, and add gradually to egg yolks, beating all the while. Fold in 3 egg whites which have been beaten until stiff but not dry. Pour into glasses. Top each serving with grated nutmeg.
Fruit juices and eggs should be very cold.
Yield: 6—8-ounce glasses.
